PROJECT:

Final Project:

- **TITLE:** Multipurpose security and emergency application for elderly people, women, children and physically challenged.
- **Abstract:** This project suggests a new perspective to use technology to protect women, children, elderly people and physically challenged. We use android based smart phone with an integrated feature that alerts and provide location based information.
- **Team Size:** 4 members

DBMS Mini Project:

- **TITLE: Movie Ticket Booking System.**
- **Abstract:** The project objective is to book movie ticket online. This ticket reservation system is used to book the ticket and it is the one of the best opportunities for those who cannot afford enough time to get their tickets reserved standing in long queues. The application provides complete information regarding currently running movies on all the theaters with details of show timings, available seats.
- **Team size:** 2 members
